

VentureClad

Factory applied weatherproofing system

1579 Silver (13ply)

1579 Silver Embossed (13ply)

1579 WM White (13ply) Salt & Chemical resistant

Available Insulation Materials

- Calcium Silicate
- Cellular Glass
- Glass Wool
- Mineral Wool
- Phenolic
- Polyisocyanurate (PIR)

VentureClad

Factory Applied

The VentureClad factory applied weatherproofing system has been developed by the IBSL Group and Venture Tape Europe with quality and cost saving as the driving force.

The insulation arrives on site pre-covered resulting in reduced installation times eliminating waste and job-site contamination.

This system greatly reduces costs during the application and installation of fabricated insulation materials.

VentureClad is a zero perm durable multi layer laminated product. A taped system that requires no screws, rivets or sealants, making inspection and repair quick and easy.

Benefits & Advantages

- Weather resistant
- Absolute vapour barrier
- Watertight construction
- Temperature application range (-23°C to 149°C)
- Fast, clean installation
- Reduced installation costs
- Easy inspection and repair
- Health & Safety benefits
- Proven track record

Where it's been used

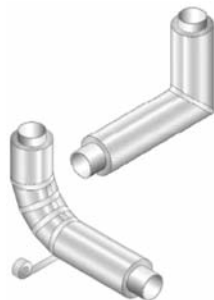

- Internal & external ducts and pipe work;
- Cold insulation-LNG, LPG etc...;
- Anti-Splash tape for low pressure fuel lines on ships;
- Pharmaceutical - Wash down applications
- Clean room applications
- Food industry;
- Hospitals and schools;
- Oil refineries
- Power Stations;

Weatherproof Jacketing Materials

- 1577 Silver (5ply)
- 1577 Silver Embossed (5ply)
- 1577 WM White (5ply) Salt & Chemical resistant
- 1579 Silver (13ply)
- 1579 Silver Embossed (13ply)
- 1579 WM White (13ply) Salt & Chemical resistant

Insulation Materials

- Calcium Silicate
- Cellular Glass
- Glass Wool
- Mineral Wool
- Phenolic
- Polyisocyanurate (PIR)
